三、As we all know, there is only one Earth in the world. It's our home. So it is important for  
us to protect it.

However, people throw a lot of rubbish every day, this pollutes the land. People burn  
things to make energy, this pollutes the air. People catch a lot of fish, so there are fewer and  
fewer fish in the sea each year.

We must stop doing these. At the same time, we should plant more trees and we should
